TABLE TOP VACUUM PACKING MACHINE

Product Details

Table top vacuum packing machines for packaging in pouches for food products and non. They are vacuum packaging machines that have been designed or vacuum processes. These processes are utilized to keep perishable food fresh by removing the air from a vacuum bag to come up with a packaging that helps preserve and prolong shelf life. They are compact and ergonomic, top quality components, made of stainless steel, these machines are easy to clean and long lasting. They are mainly used in supermarkets, butcher shops, delicatessens and restaurants. The 10 m³/h pump ensures a faster vacuum packaging cycle.
